Personal

Birth date: July 24, 1986.

Nationality: Czech

Marital status: single

Degree: BSc.

Education

GCE examination. Informatics, *Vyšší odborná a střední průmyslová škola Varnsdorf*, 2005

B.S. Informatics, *Czech University of Life sciences*, 2009.

Employment

Note that first three of these are just part-time jobs done during studies.

DeCe Computers (Computer technician) 2003–2005.

Computer assembly, Hardware testing, Data restoration.

Radio Help Market (Python programmer) 2005.

Writing WEB based interface to MPD in ZOPE/Python for Ahold In-Store playback.

Information and Help center for University of Life sciences (Programmer/Lector) 2006–2009.

Writing various WEB based applications for large variety of University activities.

Namely *E-farmer* portal, or *Virtual University* portal.

Lector of GIS for the Virtual University

Czech centre for science and society (Programmer/Admin) Fall 2009–Summer 2011.

Managing Debian and Gentoo based servers. Various web services (apache, dovecot, ...) and GIS software.

Writing web CMS and Soap services for geoportal server in php/C (The CMS without GIS parts is running on the CCSS homepage).

SUSE Linux s.r.o. (QA Engineer) Summer 2011–now.

Testing updates (feature/security/bugfix) for SLE released products and verifying their quality and correctness.

Writing new tests / test cases for the above tested software.

Automating tests and extending test frameworks (Hamsta, OpenQA).

Expertise

Languages

Czech - Native

English - Fluent in reading, writing and speaking.

German - Beginner, in a level where I can read up things with vocabulary around.

Computers

Programming/Coding languages (those I trust myself in): Bash, PHP, C, Python.

Good knowledge of bug tracking usage/workflow.

Various SCM (Version control system) usage knowledge. On daily basis: GIT and CVS.

Knowledge of database design (mostly worked with MySQL and PostgreSQL).

Gentoo Linux Developer 2008–now.

Council member (January 2010 – July 2011)

KDE Team Lead (February 2010 – February 2011)

Clustering Team Lead (June 2010 – July 2011)

QA Member (October 2009 – July 2011) - focused on proper eclass (buildscripts) usage.

Xorg team member (March 2009 – July 2011) - responsible for Mesa/Radeon and eclass.

CMake build system coordinator (October 2008 – July 2011)

KDE Team member (October 2008 – Now) - Maintainer and mostly author of eclasses and scripts used on version updates for KDE 4.

Overlays Team member (Jun 2009 – April 2010) - Responsible for git and svn server implementations.

Git eclasses (build wrappers) maintainer (Feb 2008 – September 2011)

Libreoffice maintainer (June 2011 – Now) - Complete overhaul of the build system.

I am also upstream developer. Commits signed as tchvatal@suse.cz.

Great knowledge of build systems (autotools/CMake), author of builds for multiple packages (tuxanci, openxcom, libtextecat, libvisio, libwp*, etc.)

Czech translator for KDE related packages (2010 – Now)

Czech translator for VideoLAN packages (2008 – Now)

Developer/contributor into various games (OpenXcom, Tuxanci, ...)

Libreoffice developer focused on build system clarity and smooth Linux integration (June 2011 – Now)

Probably lot more that was simply forgotten to be mentioned here...
